

Stanford's Lewy Body Dementia Research Center of Excellence  
& Brain Support Network Present

# Lewy Body Dementia Caregiving Symposium

Saturday, October 14, 2023  
10am–2pm PT

This is a hybrid event – attend virtually or in-person on Stanford's campus. Kathleen Poston, MD, Stanford will give an overview of Lewy body dementia. Christina Irving, LCSW, Family Caregiver Alliance will discuss communication challenges in the context of dementia and hallucinations.

After a lunch break (no speakers), there will be a panel of LBD caregivers, many of whom attend the local Brain Support Network LBD support group.

In-person and online  
Advance registration required

In-person:  
Doors open 9:30am - Lunch provided
