

# Volunteers Needed for Mind & Memory Changes Study

Consider participating in research to help Stanford neuroscientists understand mind & memory changes in Parkinson's disease.

We are recruiting individuals with Parkinson's disease, Dementia with Lewy bodies, and healthy volunteers.

Study participation includes:

- 1 day or 1.5 days in-person visit at Stanford.
- Assessments: neurological exams, neuropsychology testing, a blood sample, gait & balance tests, collecting cerebrospinal fluid (optional), and collecting PET/MRI scans (optional)
- This is a longitudinal study looking at Parkinson's disease over time. You will be contacted once per year by phone or visit at Stanford.

**Register here!**

Participant information is kept confidential, and participation is completely voluntary.

For general information about participant rights, contact (866) 680-2906.

You will be given a parking and lunch voucher, \$200 if you agree to a lumbar puncture collecting cerebrospinal fluid, and \$100 for a PET/MRI scan.

**To register or for additional information, please contact Hannah Schmitz at [hschmitz@stanford.edu](mailto:hschmitz@stanford.edu) or scan the QR code on the left!**
